

Pro Quartz®
PROFESSIONAL QUALITY GRANITE

Pro Quartz®

Lifetime Limited Residential Warranty

Because our every client's peace-of-mind is of the highest priority to us, we offer a lifetime warranty on any of our quartz products installed in residential applications.

Electronic copies of the full details, terms and conditions of the ProQuartz lifetime limited residential warranty, along with the ProQuartz Fabrication and installation Manual can be obtained from any of our offices or distribution agents.

Actual slab colour may vary from pictures.

Welcome to Pro Quartz®

PREMIER QUARTZ SURFACES

ProQuartz offers a rare combination of superior aesthetics, versatility and unsurpassed strength in all its quartz products, where elegance and beauty meet functionality and lasting durability.

ProQuartz countertops are the new worry-free alternative to high-maintenance work tops. They are harder than marble and granite, require no resealing, are highly resistant to scratches and stains and come in a huge variety of colours.

In addition, ProQuartz products are perfect for splashbacks, bathroom vanities, furniture, wall cladding and flooring and add timeless elegance and contemporary aesthetic appeal to the home, the office and commercial applications such as hotels and apartments.

Quartz is naturally hard and scratch-resistant, ranking a score of 7.0 on the Mohs Hardness Scale, which is used to measure the scratch-resistance of a material. Only diamonds (ranking 10), topaz and sapphire are harder than quartz.

Eternally durable, timeless beauty

Cost-effective and environmentally friendly
